

Species

- Arabidopsis thaliana
- Oryza sativa
- Solanum lycopersicum
- Vitis vinifera
- Zea mays

WRKY47 function

- Fungal elicitor responsive element
- MYB binding site
- MYC binding site
- MeJA-responsiveness
- Absciscic acid responsiveness
- Anaerobic induction
- Cis-element involved in seed specific expression
- Ethylene response element
- Light responsiveness
- Salicylic acid responsiveness
- Stress response element
